Dear DOJ:

I want you people to understand that
you must LEAVE MICROSOFT ALONE!!!

You must not punish companies and
creators like Bill Gates for being
more successful than their competitors.

That's why it's called competition!

Someone wins and someone loses.

And in so winning, Gates and his team
have helped make PC use so inexpensive
that we, the consumers, can all use
them. Microsoft is PRIVATE PROPERTY,
it has a RIGHT to its profits,
and you have NO right to confiscate them.
